

RF Industries adds Female Barrel Adapter to Extensive line of 4.1/9.5 (Mini) DIN Adapters

The 4.1/9.5 (Mini) DIN connector interface has been used in wireless infrastructure and DAS (Distributed Antenna Systems) applications. Essentially a compact version of the 7/16 DIN connector interface, the 4.1/9.5 (Mini) DIN offers good electrical performance and low PIM (Passive Intermodulation).

RF Industries introduces the 4.1/9.5 (Mini) DIN female-to-female “barrel” adapter, part number RFD-4195-1953. The adapter is manufactured with machine brass body, plated in a durable tri-metal (white-bronze) finish with a PIM rating of less than or equal to -160 dBc using 2 tones at 20 watts.

In addition to the female-to-female adapter, RF Industries offers ten 4.1/9.5 (Mini) DIN in-series and between-series adapters to N and 7/16 DIN interfaces.

Available from RF Connectors distributors throughout the US, Canada and Mexico. For additional information contact us at 800-233-1728 or 858-549-6340, rfi@rfindustries.com or visit our web site at www.rfindustries.com. RF Connectors is a division of RF Industries (NASDAQ RFI), a leading supplier of connectivity solutions provided through its operating divisions: RF Connectors, RF Cable Assembly, Aviel Electronics, OddCables.com and Cables Unlimited.
